

Secrets to Developing a Successful Package of Projects

**Mike Tottman (MWH)
and
David Scarlet (NZTA)**

Overview

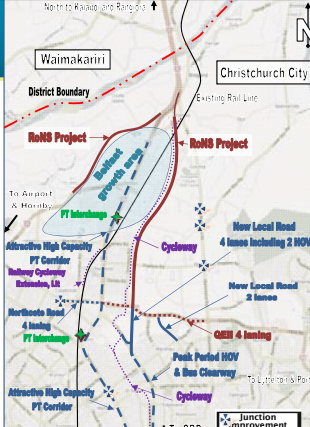

- The Christchurch Northern Access Package as endorsed by the NZTA Board
- Package terminology and benefits
- Process to develop the package and the following NZTA assessment
- The secrets, what were the key elements for a successful NZTA package endorsement

Location

The endorsed package

- \$286 million in total
- \$185 million in RoNS
- \$101 million local transport projects
- 25 activities in total
- A 30 year period
- Profile HHM

NZTA terminology

- **Activity:** Infrastructure work or service provision
- **Package:** A complimentary group of activities
- **Macroscopic:** The function, form, design features

Why develop a package?

- Provides integrated land use planning

- Helps in funding process for activities

The start... working out the package

Minimising impact to local road network

CHRISTCHURCH

Sustainable travel

WAIKAREIRE

Unrestricted access from the north

Environment Canterbury

Improvements to public transport

Environmental responsibility

Value for money

NZ TRANSPORT AGENCY

Strategic network efficiency

The start... working out the package

Minimising impact to local road network

CHRISTCHURCH

Sustainable travel

WAIKAREIRE

Unrestricted access from the north

Environment Canterbury

Improvements to public transport

Environmental responsibility

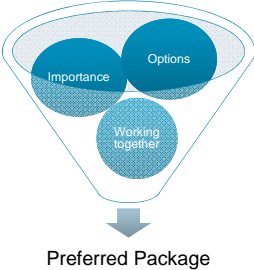

Value for money

NZ TRANSPORT AGENCY

Strategic network efficiency

The middle... testing and optimising

- A facilitated three day workshop

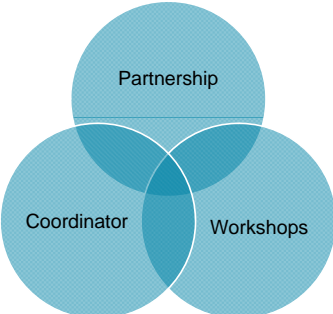

Preferred Package

The finish... getting to the NZTA Board

- Compiling a draft board paper agreed by the agencies
- Assessment by NZTA Regional Partnerships and Planning, including examination of synergies
- Completion of the board paper by RPP and endorsement by the Board
- Next steps and the potential effects of the February earthquake

The main “secrets”
